

Course Outcomes:

Department of CSE

Semester: Fall, 2020

Course Code : CSE235

Credit Hours: 03

Course Title : Numerical Methods

Course Teacher: Protima Dash

course outcomes (CO'S)

CO1	Solve differential equations that arise in the field of engineering and interpret the result.
CO2	Estimate errors in the calculation of various methods
CO3	Develop codes and analyze its efficiency level
CO4	Explain numerical procedures that are used in developing different software packages
CO5	Apply knowledge and skills to optimize a problem
