

The image shows a screenshot of an IDE with a Python script and its execution output. The script is named `count_vowels&show.py` and is located in the directory `E:\CSE\Summer2`. The script contains three lines of code:

```
1 a=int(input())
2 b=int(input())
3 print("Sum of two number :".a+b)
```

The output of the script, shown in the Run window, is:

```
"E:\CSE\Summer2021\00P2 lab\csv01\venv\Scripts\python.exe" "E:\CSE\Summer2021\00P2 lab\c
7
8
Sum of two number : 15
Process finished with exit code 0
```
