My intention to be in University

A university is an institution of higher education and research which awards academic degree in several academic disciplines. University gives students the opportunity to gain an in-depth knowledge of their chosen subject and develops skills. My intentions to be in university are building the foundation of my career.

Higher study is important to build up a successful career. Career planning is a lifelong process which includes communication skills, self-confidence, getting a job, problem solving skill, which university provide. In future, I want to be a successful software engineer and that the best version of my self. So I need to learn and gather skill to survive in this competitive world. It's not just about learning. There are lot of extracurricular activities, which will boost both enjoyment. That's why I am getting admitted to the university.
